

Empowering you to make smart energy choices

The Vision

Residential Energy Performance Roundtable

The Vision

- Residents are aware of the value of Home Performance
- An expanding workforce is qualified to audit and weatherize homes to a quality standard
- Incentives are restructured to maximize effectiveness as demand for deeper services rise
- Utilities continue to track savings and progress towards our Wx 80x30
- Homes continue to receive the "Home-as-a-System" treatment

Transformation Pathway

Awareness

 Foster an understanding and demand for home performance

Home Labeling

• Consistent statewide score

Delivered through qualified assessors

Work Standards

- Develop training standards for professionals
- Ensure work is done to the set standard

Rebate Structure

 Develop structure which allows for all qualified vendors in good standing to offer incentives

Codes & Standards

 Set standards to assure that all future homes in CT are built to their peak efficiency

Competition & Innovation

 Allow customers to reap the benefits of a well regulated free market
